File Types

Your logo is available in these formats and uploaded to shared DropBox folders. Each format has a particular use.

.eps Encapsulated PostScript file, vector art
Can be used in high-end, digital or offset printing. It ought be used when quality of logo is important; when it is being resized (i.e. signage)

.jpg JPEG file, made up of pixels (or dots) in two sizes
Should be used for web applications or in-office printing, fliers, etc. Cannot be resized excessively without losing resolution and quality.

.png PNG Portable Network Graphics in two sizes
A bitmap image file format made up of pixels (or dots) Should be used for web applications. Often can have a transparent background for versatility. Cannot be resized excessively without losing resolution and quality.

.pdf PDF Portable Document Format
A file format that provides an electronic image of text or text and graphics that looks like a printed document and can be viewed, printed, and electronically transmitted. Often used for proofing or can be used for printing when resolution is set high (300 dpi) when created.
